DETAILED ACTION

The Amendment, filed on September 7, 2004 has been entered and overcomes the rejection of claims 26,28,29,33-38, under 35 U.S.C. § 103(a).

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Page 1 after the title, before line 2 the paragraph has been replaced with the following text.

--CROSS-REFERENCE TO RELATED APPLICATION

This application is a continuation of U.S. Patent Application Serial No. 09/522,155 filed October 28, 2003, now U.S. Patent 6,639,357, which claims the benefit of U.S. Provisional Application Serial Nos. 60/188,613, filed March 8, 2000 and 60/185,232, filed February 28, 2000. --

Allowable Subject Matter

Claims 26-38 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Art Unit: 2879

Regarding claim 26, the references of the Prior Art of record fails to teach or suggest the method for fabricating highly transparent and highly efficient organic light emitting device having the combination of the limitations as set forth in claim 26, and specifically comprising the limitation of preparing in sequence the transparent electron injection layer formed of hole blocking, exciton blocking or a combination of hole and exciton blocking material and a transparent non-metallic electron injecting cathode layer.

Regarding claims 27-38, claims 27-38 are allowable for the reasons given in claim 26 because of their dependency status from claim 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
